Liberating Army of the Republic, Headquarters, San Luis, Oct. 10, 1846.

Most Excellent Sir—On the evening of the 8th inst. I arrived at this capital, accompanied by my staff, and established therein the headquarters of the Army of Operations, destined to repel the unjust invasion made upon the Republic by the Army of the United States of the North.

I have the pleasure of saying to your Excellency, that my entrance into this State was made amidst the congratulations of a magnanimous people, who have not crased to bestow upon me profuse marks of consideration, and the same famry, company H, killed on the 21st; J Stubert, private, 3d Infv. company H, killed on the 21st; Edgar Lavalette, private, 3d Infv., company I, wounded on the 21st, died on the 27th; Edward Reilly, private, 31 Infty, company K, killed on preme executive power, and accept assurances the 21st; Benj. His prefext was, that it was unsafe to forward this large amount of money to the sea coast in the present state of affairs. He gave receipts for the money, and his individual bonds for its restoration. It must be confessed that this mode of supplying his coffers is infinitely more a ceptable to the people at large than a forced loan from the clergy. The accounts we give of this great financial stroke, we do not derive from Mexican papers, but we have entire faith in the facts. We trust they will be satisfactory to English merchants, and be accepted as an earnest of the recurrity of the money they loaned Mexico on the morigage of the Californias. We find Santa Anna's letter, of the 10th ult, in the latest paper before us. We regret to say, that the papers give us no clue to his plan of operations.

But while Santa Anna was on his way to San Luis, he wrote back from Queretaro, on the 3d of October, as follows: "The disaster which we encountered at Monterey is not so great as I at first thought. Our troops have left for Saltillo, and have aiready occupied the principal points of the Sierra. So far from the troopshave.
